

# Ozone Action Day

**Tuesday, June 24**

## Help New York Breathe Easier!

Ride your Bike, Roller Blade, or Walk to Work - help reduce cold starts, and save some money.

If you live far from work, call 866-OZONENY (696.6369) for free rideshare and transit assistance.

Check traffic and transit updates before you leave home and work to avoid excessive engine idling.

Refuel Vehicles in the Evening and Avoid Spilling - It prevents gas fumes from heating up and creating ozone.

Care for your Car - Getting regular tune-ups and oil changes and checking tire inflation improves gas mileage, extends your car's life, and helps cut your vehicles emissions by as much as half.

Trip Chain - combine your errands into one trip.

Mow the lawn in the Evening - not only is it cooler for you and better for your lawn, but it's better for the environment!

Turn the AC off during the day and keep the blinds drawn to keep heat out.

**OZONE·NY**

**ACTION PLAN**

Everybody should have one.
